CSS Secure is a premier private security and integrated facility management company in India, established in 1998 by Colonel Shishupal, a distinguished army veteran and former Military Secretary to the President of India. Over the past 25 years, CSS Secure has grown from a small unit of 19 guards in Shillong to a national organization with more than 6,000 trained personnel deployed across 80+ locations in states like Assam, Meghalaya, Tamil Nadu, Telangana, Karnataka, and Maharashtra.

The company specializes in PSARA-licensed services, including uniformed guard deployment, personal protection officers (PSOs), armed security led by ex-defence personnel, event security, and comprehensive facility management solutions. Under the leadership of Venu S. R. Pariat, CSS Secure has emerged as a forward-thinking organization focused on innovation, responsiveness, and client-specific customization. Desisle

More Than a Company, It's a Comeback Story: Why Desisle is a Top Indian Startup to Watch in 2025

Imagine you have a brilliant idea for an app, but you can't design or code. You feel stuck. What do you do?

This is the exact problem a special company from India, Desisle, is solving—and they're doing it so well that they've just been named one of the Top 5 Growing Indian Companies to Watch in 2025.

A Founder Who Almost Gave Up

To really get what Desisle is about, you have to know the story of its founder, Ishtiaq Shaheer. A few years ago, Desisle was a side hustle that took off faster than he ever imagined. He got support from top programs like the Indian School of Business (ISB) and the Wadhwani Foundation. Clients loved his work. But behind the scenes, Ishtiaq was burning out.

“Like many founders, I hit a wall,” he shares openly. “Work piled up. My health took a hit. I had to pause Desisle.”

Many stories would end there. But in late 2023, Ishtiaq restarted the company with a new, healthier rule: grow at a human pace. This comeback story is the heart and soul of Desisle today.

Your First Teammate, Not Just a Hired Company

What does Desisle do? They help people with great ideas—especially startups and founders of young companies—build their digital products.

But here's what makes them special: they don't just take your order and send you a design. They become your extended design team. Think of them as your first expert employees, your partners who are just as excited about your idea as you are. They sit with you, help you figure out what users really want, and guide you every step of the way.

For any founder needing to build a first version of their product (an MVP), Desisle is the perfect MVP design partner.

And it's not just talk. The industry is noticing. This year alone, Desisle has been showered with awards, being called a Top Web Designing Company by GoodFirms, a Top Mobile App Development Company by DesignRush, and a Top Product Design Company by FindBestFirms.

While they are masters of SaaS Design and UI UX Design, they can also handle the entire project. Their team offers development, builds websites on WordPress, and even manages digital marketing to help you launch and grow.

Helping Others Start Their Own Design Journey

Ishtiaq hasn't forgotten what it feels like to be starting out. That's why Desisle has a second mission: mentoring students and helping people switch careers to design.

They are launching a Product Design Course and a UI UX Design course to teach the real-world skills that companies are looking for.

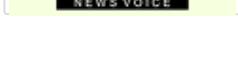

“I want to help aspiring designers bridge the gap between learning and doing,” Ishtiaq says. “It’s about giving them the confidence and practical skills to build amazing things.”

Ready for the World

Now, Desisle is ready to take this unique, human-first way of working to the rest of the world. They are in the final steps of registering their company in the UK, ready to partner with founders and startups globally.

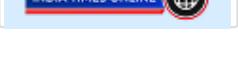

Being named a company to watch in 2025 is a huge honor for Desisle. But the real story is simpler. It’s about a founder who chose health over hustle, a team that acts like a partner, not a vendor, and a company that believes in building people up, whether they’re clients or students. And that’s a story worth watching.
